Our school initiatives are on track to meet or exceed our targets

During 2019, we focused on maximising the benefits of this funding for our students. After reviewing our *Investing for Success* agreement, it is clear that we are on track to meet or exceed our targeted student outcomes except in year 5 writing. We continue to implement our initiatives to ensure that every student succeeds and will plan to support the implementation of further writing interventions in 2020.

Initiatives implemented include:

- Providing high quality professional development for all staff in relation to the explicit teaching of reading and writing;
- Providing all students access to a holistic needs based intervention, support and extension program that delivers improved outcomes for all learners;
- Focused guided reading program across all year levels using evidenced based strategies and utilizing all student support resources including but not limited to special education staff, learning support staff and teacher aides;
- Embedding of the Accelerated Reading initiative across Years 2 – 6.
